

## MAIN FEATURES AND BENEFITS

### HYDRAULIC ROTATION

Equipped with a 360° hydraulic system to allow or correct alignment during use.

### REVERSIBLE BLADE

Extends wear life and lowers operating costs by allowing blades to be flipped and reused before replacement is required.

### PREMIUM-GRADE WEAR-RESISTANT STEEL

Proudly made with Hardox steel, known for its excellent toughness and impact resistance, making it ideal for heavy-duty applications.

### EFFICIENT AND SAFE HANDLING

The robust design allows for efficient and safe handling of most construction materials such as wood, block/brick, plaster.
